MEMORANDUM FOR: Deputy Director of Scientific and
Weapons Research

FROM:

Director of Training and Education

SUBJECT: Presentation to Midcareer Course No. 93

1. In response to students' comments from the last Midcareer Course and our renewed emphasis on current concerns versus organizational structure, we have rewritten the scope note for your office's presentation. The new scope note reads:

Office of Scientific and Weapons Research

OSWR assesses the technical capabilities of foreign weapons and space systems. It also studies technology transfer, nuclear weapons/energy, and scientific and technological developments on a worldwide basis. After briefly describing this mission, our speaker will then address issues raised in the tasking problem and respond to your questions.

2. We have incorporated four tasking problems into the curriculum. These deal with strategic arms control, technology transfer, narcotics (cocaine from Colombia), and

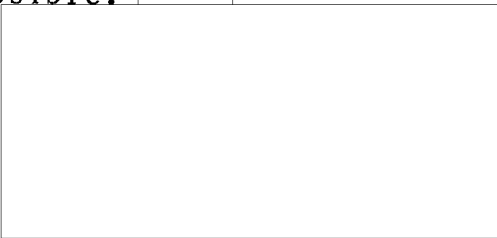

The exercises will focus on interaction among Agency and Community elements in producing the intelligence response to the problems. The students in both the strategic arms control and technology transfer problems will want to explore these subjects with you. Therefore, we request that you spend 20 minutes of the 50-minute time allocation on your office's mission. We suggest that you confine any audio-visual materials (vu-graphs) to this segment. The remaining 30 minutes would be reserved for answering the students' questions and responding to issues raised in our tasking exercises.
